LIVE CALLIGRAPHY

Live calligraphy is a great form of entertainment for attendees in which I create a personalized keep-sake item that your guests can take home that same day! If you are wanting to make your event unforgettable, this is the way to do it!

See above for examples of my work.

PAST EVENTS

With my 11+ years of experience in customer service, I am confident and passionate in connecting with your guests. I can personalize a variety of items and surfaces using different tools such as brush pen, paint pen, and fabric pen.

See below examples of my past live calligraphy events.
